Saviance Technologies Becomes an NJ-HITEC Health IT Sponsor

The innovative solutions company offers patient engagement portals,
collaborative applications & actionable analytics
that fit the mission of NJ-HITEC in assisting providers to achieve
Meaningful Use of EHR systems

Newark, NJ (February 14, 2014) – Saviance Technologies, a US based technology services company has recently become Health IT Sponsor with the New Jersey Health Information Technology Extension Center (NJ-HITEC), a national leader in assisting physicians reach the goal of effectively utilizing Electronic Health Records (EHRs) systems. The NJ-HITEC Health IT Sponsor program is designed to partner with companies that fit its mission and offer its members cutting edge options to improve patient care through health information technology and other key services.

President and CEO of Saviance Technologies, Rohit Mahajan, states, "The Saviance partnership with NJ-HITEC focuses on enabling Meaningful Use of information technology for physicians. The Saviance cutting-edge, cloud-based innovative IT products and solutions will take doctors to the next level of high quality patient care with increased productivity. I am certain that this partnership is the beginning of a very dynamic phase for both NJ-HITEC and Saviance."

NJ-HITEC Executive Director, Bill O'Byrne, adds, "Our first and foremost goal is to assist physicians from primary care providers to sub-specialists to effectively and efficiently utilize their EHR systems to improve the timely delivery of high quality care and to attain federal

incentives. We have a history of engaging providers and that is why we have over 8,000 members. We are very selective with our partners and sponsors because we have established our reputation by being innovators and providing physicians with a high level of expertise through our dedicated and well-trained staff."

Saviance is a leading provider of Health IT solutions that offers services that enable healthcare enterprises to achieve critical business objectives. Its cloud-based products are cutting-edge mobile integrated solutions that give the maximum advantage with minimum investment. Saviance solutions help to ensure ROI and increase productivity by enabling patient engagement through process automation; 24 hour/seven day access to medical information through portals and EHRs; and easier transfer of data online.

ABOUT NJ-HITEC:

NJ-HITEC provides support and assistance to New Jersey's physicians in the selection, implementation, and achievement of "Meaningful Use" of an ONC accredited Electronic Health Record (EHR) system. It was established in June 2010 by the New Jersey Institute of Technology (NJIT) through a $23 million grant from the U.S. Department of Health and Human Services, Office of the National Coordinator as part of the American Reinvestment and Recovery Act (ARRA) of 2009. NJ-HITEC is a national leader as one of 62 federally designated Regional Extension Centers nationwide established to improve American healthcare delivery and patient care through the investment in health information technology.
