19 August, 2014

**Saviance Technologies is
Partner at the National Health IT Week, US**

This is a collaborative forum where public & private healthcare constituents work in partnership to educate industry and policy stakeholders on the value of health IT for the U.S. healthcare system

NEW JERSEY – [Saviance Technologies](#), a Houston based Healthcare technology Services Company is a [proud partner](#) in [National Health IT Week](#), 16-20 September, 2014, at Washington DC. Saviance is a US minority certified company that focuses on Patient Engagement with Innovative Products and Solutions like Patient Intake Tablet, iHealthConnect Wellness Portal, Mobile Applications, Actionable Analytics and ICD-10 Testing Services.

Health information technology improves the quality of healthcare delivery, increases patient safety, decreases medical errors, and strengthens the interaction between patients and healthcare providers. Saviance strongly believes in this and works to help enable meaningful use of IT for Healthcare.

To mark the important role health information technology plays in improving healthcare delivery in America, Saviance and others across the U.S. have joined together to celebrate National Health Information Technology (NHIT) Week , September 16-20, 2014. The theme of the event this year is NHIT Week theme: One Voice, One Vision: Transforming Health and Care. This is a premier event offering all healthcare stakeholders an opportunity to unite

under one banner, expressing the benefits that health information technology (IT) brings to U.S. healthcare. “One Voice, One Vision.”

“Our participation in National Health IT Week highlights our organization’s commitment to ensure health information technology is integrated, interactive, interoperable, and intelligent to provide the best patient outcomes, says Venky Ramana, Chief Sales Officer, Saviance Technologies. “By working together we can leverage the technology to promote for the betterment of our healthcare system.”

The Week consists of events in Washington DC and across the country, including National Health IT Week 2014 participants — vendors, provider organizations, payers, pharmaceutical/biotech companies, government agencies, industry/professional associations, research foundations, and consumer protection groups — all working together to elevate national attention to the advantages of advancing health IT.

Initiated in 2006 by the Healthcare Information and Management Systems Society (HIMSS), National Health IT Week has emerged as a landmark occasion for using health IT as part of the overall solution to improve America’s healthcare as a bipartisan, federally led, market driven initiative.
